Growing older cannot be prevented

"Trees grow stronger over the years, rivers wider. Likewise, with age, human beings gain immeasurable depth and breadth of experience and wisdom. That is why older persons should be not only respected and revered; they should be utilized as the rich resource to society that they are": United Nations Secretary-General Kofi Annan

Ageing is a natural process that begins at birth, or to be more precise, at conception, a process that progresses throughout one's life and ends at death. Ageing is a constant, predictable process that involves growth and development of living organisms. Aging can't be avoided, but how fast we age varies from one person to another. How we age depends upon our genes, environmental influences, and life style.

Ageing can also be defined

as a state of mind, which does not always keep pace with our chronological age. Attitude and how well we face the normal changes, challenges and opportunities of later life may best define our age.

Growing older cannot be prevented. We begin aging at the time of conception and continue aging one day at a time. However, some of the effects of aging can be slowed and even prevented. Prevention in later years requires participating in health education and health promotion activities designed to reduce the risk of disease. Prevention also involves engaging in interventions that improve outcomes in the event an illness does occur and includes efforts that reduce the risk of progressive disability and decline of function. In later life the goals of prevention also include

maintaining function, vitality and quality of life. According to "Towards Enriching Years" during the process of ageing, physical functions of the body slowly deteriorate demanding greater coping skills on the part of the ageing person to adjust to the environment. In addition, there are problems caused by others in the society because of their unfavorable attitudes. Ageism, like sexism or racism, is a concept pertaining to prejudice or a negative attitude towards a particular group. Ageism implies that the old are perceived as sick, unhappy, empty and useless, and are discriminated against.

As ageing is a continuous process in the structure and functions of the body, the physical abilities of the former tend to slow down with the passage of years. It is an impoverished environment,

poor nutrition and diseases that break down the nervous system's natural potential resistance against deterioration. As far as the psychological structures and functions are concerned, there need not necessarily be deterioration. Cicero, the Roman statesman and philosopher of first century BC, writing in his treatise On Old Age said that old people could retain their intellectual abilities by engaging their minds fully and actively and that old age was respectable as long as the elderly asserted themselves and were not dominated by anyone else.

'My daughter's fees have increased by 7 thousand'

Rajkot, The Saurashtra Zone Fee Regulation Committee is located in Rajkot. In which, besides Rajkot, the fees of more than 5000 private schools in 11 districts including Jamnagar, Devbhoomi Dwarka, Morbi, Junagadh, Gir Somnath, Porbandar, Amreli, Bhavnagar, Surendranagar and Botad are decided. Currently, the post of chairman has been vacant for the last 5 months, due to which the decision to increase the fees of 650 schools in Saurashtra has been stalled, which is directly affecting more than 2 lakh parents of Saurashtra. After P.J. Agravat resigned from the post of chairman on January 31, 2025, a new chairman has not been

appointed yet. A retired judge is appointed as the chairman of the Fee Regulation Committee, which has been vacant in the Saurashtra zone for the last 5 months. While currently, the members of the Saurashtra FRC include educationist Mukundraj Mehta, Prabhubhai Sindhav as a representative of the school management board, Chartered Accountant Hardik Vyas and Civil Engineer Praveen Vasaniya. Who are given Rs. 3500 per meeting. He is selected as the chairman of the

checking the transparency in fee regulation and the kind of facilities provided to the students. The fees in private schools keep increasing, but there is no increase in the facilities provided to the students.

'The government should also spend on education instead of spending on political programs' He further said that the state government formed a fee regulation committee in the year 2017 and at that time the fees for primary, secondary and

higher secondary schools were declared as Rs. 15000, Rs. 27000 and Rs. 30000 respectively, three to four times the fees are currently being charged by private schools. The same request is made to the government, which collects GST, a big tax, that instead of spending on political programs.
